and Uncomfortable
The Big Garner News
The Means Arrest
A Borah Triple Plan

—BY ARTHUR BRISBANE—

WASHINGTON May 6 — Hot uncomfortable in Washington and mentally.

Nobody is disgusted with everyone and finds some one to blame for lack of effective action. Democrats came marching back in the elections in 1930 and said "Give us the house in our control which will let us save the country." The nation watched and thus far has seen nothing. You would not call it a mountain in labor giving birth to a mouse, but rather two mountains, house and senate, giving birth to a microbe.

Americans would not have been pleased could they have seen and heard the proceedings in the galleries and lobbies a couple of nights ago when the attempt to reach an economy program was kicked to pieces.

There were hundreds of lobbyists, able, hard boiled, sending for their congressmen, laying down the law, telling the representatives what would happen to them at home if they did not obey orders.

* * *

WASHINGTON'S big news today is the Garner victory in California. That changes completely the Democratic battle.

Opponents of Governor Roosevelt say he has already enough votes to prevent his nomination by a two-thirds vote. Some think there will be a stampede for him when the convention opens, but they forget that political control in New York, New Jersey, Illinois and Massachusetts is against him.

Leaders in those states are not easily stampeded. Already some are climbing down from the Roosevelt bandwagon fearing it will never start.

Admirers of Speaker Garner say he must be the compromise candidate. Others professing definite knowledge say "No, the plan is to nominate Owen D. Young and it will go through."

* * *

WASHINGTON'S sensational news is the arrest of Gaston B. Means on complaint of Mrs. Evelyn McLean, wife of the Washington Post's owner. Mrs. McLean says she gave Means one hundred thousand dollars upon his promise to recover the Lindbergh baby by use of the money. Her complaint alleges that he did not produce the child or return the $100,000.

There is no knowing what sums have been and may be paid in efforts to recover the lost child.

DEFEAT of the plan to put government employes on a five-day week is pleasing temporarily to employes. It may have prevented the inauguration of a most important experiment. The plan was to pay for five days only during the emergency period and thereafter to give a full week's pay for five days, the government showing the way to industry as a whole.

Those that know predict the dismissal of one hundred thousand federal employes beginning in July. If that happens, increasing the number of unemployed, her by it will prove a greater evil than temporary reductions of income by one sixth.

Grand Jury Probes Means Case

FACTS SOUGHT IN KIDNAPING FRAUD CHARGE

$100 000 Allegedly Given on Promise Lindbergh Child Would Be Returned

EVIDENCE KEPT SECRET

Defendant Declines To Reveal His Story of Purported Swindle

By The Associated Press

WASHINGTON May 6 — A federal grand jury today heard evidence on charges that Gaston B. Means received $100,000 on false representations that he could return the kidnaped Lindbergh baby and will announce next Tuesday whether an indictment will be returned.

Mrs. Edward B. McLean, estranged wife of the publisher of The Washington Post, who said she gave Means the money, was one of the three chief witnesses.

The others were Nelson T. Hartson, an attorney for Mrs. McLean and Signor Grifoni, an Italian butler who had served her for 20 years.

Hartson said Grifoni was present when Mrs. McLean is supposed to have turned over the money to Means.

As she went into the jury room Mrs. McLean told newspapermen: "This is distasteful of course but I am going through with it."

On her behalf Hartson added: "She knew undoubtedly Means' record all the time but she certainly believed he would come through in this case." Means has served time in the Atlanta penitentiary.

Indictment Asked

Leo A. Rover, United States attorney, asked the grand jury to indict Means for larceny after trust.

This procedure was decided upon, officials said, partially to prevent the evidence against Means from becoming public. A hearing before a United States commissioner had been originally scheduled for next Tuesday.

If the commissioner's hearing had been held the evidence would become public since newspapermen are permitted to attend.

Means spent the night quietly at the district jail. He was confined within a few feet of a negro scheduled for execution today for murder.

Justice department agents were said to be working at top speed on a clue which they hope may lead to recovery of the money.

It was said also they are attempting to find accomplices.

Hoover said the bureau also was investigating a reported claim by Means that he has been in contact with the kidnapers of the baby. He indicated none of the money, reported to be $106,000 including expenses, had been recovered.

An Unusual Tale

An extraordinary tale was unfolded by attorneys for Mrs. McLean and by two men who assisted her in negotiations through which Means allegedly got the money led

FIRST 1932 CIRCUS SHOWS HERE TODAY

Downie Bros.' Troupe Performs Twice at Grounds on Fairground Street.

Tents were pitched this morning for Marion's first circus of the season. The Downie Bros. circus cars arrived here from Springfield early this morning and began preparations for the parade at noon today and the afternoon and night performances.

The parade left the circus grounds on Fairground street at 11:45 and was viewed by large crowds all along the line of march. Tableaux floats in patriotic colors, clowns, four bands, two calliopes and cages of wild animals brought wide eyed attraction from the kids.

Among the features of the Downie Bros. show are the famous Hanneford family of English riders with George Hanneford the riding comedian; Buck Owens, billed as a cowboy film star, and his horse Goldie; the famous Morales family, tight and slack wire performers from Mexico, featuring Felix Morales in his "slide for life" from the dome of the canvas to the grounds. Another feature of this season's performance is "The Leaps," a thriller of the circus of 40 years ago.

Charles Sparks, former owner and manager of Sparks' Circus, is manager of the Downie Bros. circus. After tonight's performance at 8, the circus will leave for Mansfield. The doors will open tonight at 7.

SCHOOLS FACE MONEY CRISIS

Bucyrus Board Reveals It May Not Be Able To Reopen Schools Next Fall.

DEBT CAUSES TROUBLE

Officials Consider Plans for Reducing Expenses for Next Term.

Special to The Star

BUCYRUS May 6—The possibility that Bucyrus city schools will be unable to reopen in September due to lack of funds was disclosed Thursday night when the board of education revealed that funds for the operation of schools have been exhausted.

School officials are faced with a debt of $40,000 which has been borrowed to maintain schools in the city the remainder of the present school year. In addition bonds and interest amounting to $35,000 which fall due Oct. 1.

An estimate reveals that approximately $60,000 can be expected from the August tax settlement from which bonds and interest in addition to the $40,000 indebtedness must be met. Cost of maintaining the operation of school from Sept. 1 to Jan. 1 is placed conservatively at $50,000.

Among possible procedures for reducing expenditures suggested were these: reductions of 10 percent, discarding supervisors, closing vocational shops, reducing office help and teachers visiting grade schools, by closing two or more buildings and discontinuance of the high school band.

A delegation of 35 parents in central school district appeared before the board requesting the board not to consider combining the central elementary school or moving the grades from Central building.

Until some solution to the critical financial condition is found the board will decline to hire teachers for the next school year it was announced.

CONTRACTS HELD UP

Uncertainty of Tax Receipts Delays Galion Board

Special to The Star

GALION O May 6—Faced by the uncertainty of the tax situation in Crawford county the Galion board of education last night was unable to offer contracts to its teaching staff.

Fifty teachers were assured of employment next year however, but the board was unable to offer them salary contracts. Board members indicated that two teaching positions may be abolished.

$2,000,000 DOCK SWEPT BY FLAMES

By The Associated Press

NEW YORK, May 6—Fire raged for hours through the $2,000,000 Cunard pier in the Hudson river at Thirteenth street today, and just before noon, with the pier threatening to collapse at any moment, the flames were still out of control and steadily spreading to other waterfront property.

By 1 o'clock 70 firemen had been treated by ambulance doctors at the scene, but many of them were only suffering from smoke blinded eyes, and after treatment returned to their posts.

PRESIDENT DEMANDS ACTION BY CONGRESS

Democrats Assailed as Hoover Insists on Enactment of Budget-Balancing Program.

By The Associated Press

WASHINGTON May 6—In emphatic and sharp language President Hoover yesterday demanded of congress that it enact an effective budget-balancing program without further ado.

Enumerating specific acts he accused the Democratic managed house of representatives of undermining public confidence and undoing the benefits of the reconstruction program.

By contrast with the usual lackadaisical reception of Presidential messages this one rushed both branches of congress into an immediate fury, evoking from the Democratic leaders bitter words of blame for the President and his aids, drawing from administration supporters equally sharp recriminations.

President's Demands

Boiled down, what the President demanded was that an adequate and equitable tax bill be passed, that expenditures be reduced by $700,000,000 or more, partly through cuts in appropriations, mainly by giving him legal authority to reorganize the government with a free hand. He demanded that the appropriations cuts be accompanied by authority to shift amounts between bureaus to prevent inhuman discharging of thousands of government employes.

He accused the house of damaging popular morale by its destruc

TOLEDO GIRL FOUND SLAIN

POLICE BLAME MANIAC

Victim Killed After Terrific Struggle Although No Outcry Is Heard

By The Associated Press

TOLEDO O May 6—Strangled to death and criminally assaulted by an unidentified man, the body of Miss Winifred Rafferty, dietician at the Robinwood hospital, was found early today in an exclusive Toledo residential section.

Police blamed a maniac for the attack, and said the young woman was killed after a terrific struggle. Almost all of her clothing was torn from her body, the buttons were off her coat and her shoes had been hurled several feet away.

[illegible] Carr, son of W. C. Carr, prominent Toledo banker, on the front lawn of his father's home only a short distance from the hospital. Carr observed the young woman's form when the headlights of his automobile shone upon it as he drove into the driveway returning home from Detroit.

Enroute to Hospital

Miss Rafferty, a member of the Red Cross life saving corps and of the Toledo Knights of Columbus swimming team, was returning to the hospital after attending a swimming class when she was killed.

Although the body was not found until several hours later, police said the murder was committed between 10:10 p. m. and 12:30 a. m. They estimated the time from the fact that a heavy rainfall set in at 12:30 and that both of the young woman's shoes were filled with water.

Mrs. William Greer, mother of the slain girl, said her daughter and other nurses had been annoyed by a man numerous times in the same vicinity.

Accosted Before

Miss Wanda Miller, the slain girl's room mate, told police a young man had stopped Miss Rafferty near the hospital two weeks ago and had made improper ad

COMMITTEE ADOPTS COMPROMISE BILL

High Income Rates Modified in Measure Approved in Senate.

By The Associated Press

WASHINGTON May 6 — The senate finance committee today adopted a compromise tax bill.

Confronted with a warning from Secretary Mills that it had dealt a disastrous blow to public confidence and with word that the President was about to issue a statement calling the attention of the country to his views for a prompt balancing of the budget, the committee accepted a compromise program presented by the administration.

Calling for modification of the high income rates it was advanced by Mills and was accepted 13 to 4. The surtax income rates were modified from a maximum of 55 per cent to 45.

Normal rates of 4 per cent on the first $4,000 income and 8 per cent on income over $4,000 were retained.

A new levy of 5 cents a pound on rubber imports was added.

The secretary also looked disapprovingly on the high income, corporation and inheritance taxes.

In the place of these he suggested a broader spread of the excise taxes to include a gasoline and higher automobile tax.

The automobile tax was [illegible] from 3 to 4 per cent.

DARROW HALTS PARDON PLAN

Tells Convicted Quartet To Be Satisfied with Shortened Sentence

By The Associated Press

HONOLULU May 6 — Lieut. Thomas H. Massie, his socially prominent mother-in-law, Mrs. Granville Fortescue, and two navy men may not seek a pardon for their conviction of manslaughter in the slaying of Joseph Kahahawai, Hawaiian.

The sentence of each, 10 years at hard labor, was commuted to one hour by Gov. Lawrence M. Judd of Hawaii. They served that in custody of the territorial high sheriff.

Then came the announcement a full pardon would be sought for the four, who were tried for lynching Kahahawai, who allegedly had confessed participation in a criminal attack on the naval officer's wife, Mrs. Thalia Massie.

Lose Citizenship

Indications were that upon the advice of Clarence Darrow, their chief criminal defender, they would discontinue their pardon efforts.

Emphasizing the importance of a pardon, Darrow advised them to let the matter drop. He told them to accept Governor Judd's commutation of sentence without seeking further relief at this time. He suggested the restoration of their citizenship rights—rights

FORMER LOCAL MAN, WIFE DIE IN TRAGEDY

Police Believe Man Shot Wife, Then Took Own Life 12 Hours Later

TO BE BURIED IN COUNTY

Body of Woman Not Found Until After Man Kills Self

What police believe was a murder and suicide in which two former Marion residents were victims was disclosed in Akron Wednesday night by the death of Eugene O. Sabins, who was reared here today.

The murder of Mrs. Ella Sabins, 43, Tuesday night was not discovered until after Sabins took his life 12 hours later in what is believed to have been the climax of domestic difficulties.

Sabins was the son of Mrs. Ella Sabins of 106 W. Center street. Mrs. Sabins was the daughter of Mr. and Mrs. J. A. Metz of south of Meeker.

Funeral To Be In County

Bodies of both victims have been sent to Marion county for funeral services Saturday morning.

Sabins took his life in the presence of his sister, Mrs. Virgie Clinger of Morral, and his son Darrell, 12, according to reports from Akron today.

Coroner M. B. Sitts at Akron this morning expressed the opinion that Sabins shot his wife Tuesday night according to news reports from Akron. Sabins is said to have come to Morral Wednesday for his sister, Mrs. Clinger, to ask her to go to his home. She accompanied him to Akron after he had told her that Mrs. Sabins had left him, and that he needed help in caring for his son, it was reported at Akron.

Knew Nothing of Murder

Mrs. Clinger and the son knew nothing of Mrs. Sabins' death until Wednesday night after Sabins had committed suicide according to news report. Her body was found in an unused upstairs room of the house, lying on a mattress, after he had committed suicide.

Sabins used a .32 caliber revolver to take his life, firing a bullet into his heart. Seven bullets that had been hit by a firing pin but that had not been discharged were found in his pocket. An investigation was to be made to determine the caliber of the bullets that caused Mrs. Sabins' death. She was shot through the chest and through the head.

Mr. and Mrs. Sabins left Marion three years ago to move to Akron. They lived here several years on Olney avenue and a short time on East Center street. Sabins for six years was a welder at the Marion Steam Shovel Co. and Mrs. Sabins formerly was a school teacher.

Domestic difficulties are believed to have developed between the couple when Sabins attempted to persuade Mrs. Sabins to move to the country.

Both Were Working

Both Sabins and his wife had been working. She was employed in an Akron bakery and he had been working as a welder.

Relatives here learned about the death of Sabins before it became known that Mrs. Sabins was dead. A telegram Wednesday night disclosed that Sabins had killed himself. A later telegram revealed that Mrs. Sabins' body had been discovered, but gave no explanation of circumstances surrounding the deaths.

Surviving Sabins, with the mother, are three sisters, Mrs. Gertrude Bush of West Center street, Mrs. John Mullins of Waldo and Mrs. Sidney Clinger of Morral. His father died eight years ago.

SEND TAX CUT PLEA TO WHITE

Taxpayers' Association Wants Governor To Give Legislature Additional Work

CALLS FOR COST SLASH

Local Group Wants Assembly To Study Means of Reducing Expenses.

A plea to Governor White to extend the scope of the special session of the legislature May 16 to include consideration of drastic reductions in the cost of state government will be made by the Taxpayers association of Marion county.

The association last night authorized its chairman, L. Dickerson of Prospect, to forward a letter to the governor making this request.

Meeting Thursday

A public meeting in the court house will be held Thursday at 8 p. m. to discuss means of presenting proposals for economy to the special session.

The association's letter to the governor in part follows:

"Whereas it appears that up to now you have given no substantial consideration to the universal cry throughout the state for relief from the crushing tax burden, be it resolved that you include in your recent call for a special session of the legislature a thorough and exhausting consideration of state expenditures leading to the immediate abolishment of every board, bureau or other governmental department not absolutely necessary, together with drastic reductions of all other costs including a reduction of not less than 25 per cent in the salaries of all state officials."

The letter states that there is criminal waste and extravagance in governmental expenditures at present. It also states that the appeal is made in behalf of the farmer, wage earner and small salaried civilian employe who must pay more than 75 per cent of all taxes.

The association lists its membership at 482.

ENGLISH CUSTOM IS GUIDE FOR MELLON

By The Associated Press

LONDON May 6—Guests at a luncheon of bankers and business men where United States Ambassador Andrew W. Mellon spoke today observed that the ambassador drank whisky and soda during the meal.

When he first came to London recently Mr. Mellon, questioned as to whether there would be a cellar in the embassy, said he would follow the custom of the country.

Sign of Spring

(Will Rogers Special)

HOLLYWOOD Calif, May 6—Spring has been late arriving this year, but this morning on our front page she got here.

It was the old familiar figure of Citizen Calvin Coolidge wading in the creek. When that distinguished weather-mark takes his hip boots out of drydock and launches forth with rod and cigar into the very bowels of a spring freshet, America knows she can then shed her woolens and enjoy her depression in the open air.

The picture showed he had a little "perch" in his hand and the same grin on his face that he wore on that memorable day in Washington when he with fine premeditation, and malice aforethought, slipped the responsibility of these whole United States into the innocent hands of Herbert Hoover.

You can't blame him for grinning, if he never caught a fish again.

CONDITION CRITICAL

Assassin Wounds Two Others Before Capture Is Effected.

BULLETIN

PARIS May 6—At 6:45 p. m. (Paris time) today surgeons attending President Doumer left the hospital after pronouncing his condition "very satisfactory." The President's nephew said the patient's chances now were largely a matter of his advanced age, since no vital spot had been struck.

PARIS May 6 — President Paul Doumer, white bearded 75 year old head of the French republic, was shot two times and desperately wounded today by an assassin as he opened an exhibition of books by war veterans.

He had come from the Elysee palace with Claude Farrere, the noted author. Together they entered the grand hall of the Baron de Rothschild foundation near the palace.

Farrere walked with him up the grand staircase where the president paused to sign a copy of a book by a contemporary author.

Then the president moved over to a table and stood talking with Farrere and Madame Farrere.

Five Shots Fired

Suddenly a man sprang seemingly out of nowhere, leveled a pistol at the president and fired five times.

M. Doumer's knees crumpled. He sank to the floor. He was wounded at the base of the skull and under the right shoulder blade.

Farrere sprang forward.

The assassin's pistol was still smoking in his hand.

He raised it and fired twice.

Farrere stopped with a bullet in the arm but lunged forward again and grappled with the man.

Paul Guichard, director of the Paris police, ran forward.

The assassin fired again. The bullet struck Guichard in the arm.

By this time a dozen police surrounded the man and a crowd gathered about them.

Crowd Seeks Vengeance

As the crowd grew it became an infuriated mob. The police had the greatest difficulty protecting their prisoner.

At last they got him away.

The police hammered at the assassin until they learned that his name is Paul Gorguloff, that he had come here from Monaco especially to commit this crime and that his motive was revenge for the French refusal to intervene in Russia against the Bolshevik.

They had no idea of his motive but some one heard him shout as he fired:

"On for the fatherland."

Meanwhile back in the exhibition room Farrere and others bent over the president.

He was already nearly unconscious, but he mumbled a few incoherent words as they carried him to the Beaujon hospital.

The doctors there performed an operation immediately and there were two blood transfusions. The doctors appeared uncertain as to his recovery.

Reports Are Conflicting

VET BONUS PAYMENT PLANS TURNED DOWN

House Committee Rejects Proposal To Cash Soldiers' Certificates.

By The Associated Press

WASHINGTON, May 6 — All plans for cashing the $2,000,000,000 soldiers bonus were rejected today by the house ways and means committee on a 15 to 10 vote.

The committee further voted to report the new-money bills to the house adversely.

This action creates a parliamentary situation that will delay any effort to force a house vote through a discharge petition.

Acting Chairman Crisp announced the committee action but declined to give out the individual vote of members. All the 25 members were recorded, some by proxies.

Representative Patman, Democrat of Texas, chief bonus advocate, has opposed the committee action making an unfavorable report to the house. Under the rules, Patman says June 13 would be the first day on which a vote could be forced through a petition [illegible]

MRS EMIL SWENEY was elected president at the annual meeting of the Woman's Home Missionary society of Epworth M E church yesterday afternoon in the church parlors. The program hour included a talk "Better Motion Pictures" by Dr F I Johnson of Delaware, member of the Ohio Council of Churches.

Mrs Earl Smart was elected first vice president, Mrs C J Bever second vice president, Mrs A W Graeely third vice president, Mrs Henry S Ruhl corresponding secretary, Mrs J V Wilson recording secretary and Mrs J F Neidhart treasurer.

Miss Lelah Brookshire was named secretary of the senior Queen Esther girls work with Mrs Lucille Iler as assistant.

Miss Cleo Finley was named secretary of the junior Queen Esthers. Other secretaries named are Mrs Walter Baker, Home Guards; Mrs Robert Williams, assistant; Mrs Mildred Berry, Mother's Jewels; Mrs Margaret Lairo and Mrs Louise Fogle, assistants; Mrs G A F Markwith, missionary education; Mrs Stewart Glassner, mite boxes; Mrs Harry J Barnhart, assistant; Mrs F P Dowell, spiritual life; Mrs John H Bato, Christian citizenship; Mrs W B Stiner, supplies; Mrs Cleon Williams, birthdays.

Mrs J W Jolley and Mrs F J Hunter were named to serve on the program committee, Mrs Earl Smart, Mrs C J Bever and Mrs A W Graeely finances, Mrs J W Atchinson, Mrs A N Grimes and Mrs J J Stafford visitation and membership, Mrs Jane Rexroth, Mrs A W Newby and F H King perpetual membership, Mrs F W Bradt, Mrs H C King, Mrs S R Worden and Mrs May Evans work, Mrs J H Clark and Mrs F A Boyer music, Mrs C E Turley thank offering and Mrs F L Cathart Lenten offering.

Mrs F A Boyer presided at the piano for the music which opened the program hour, and devotionals were in charge of Mrs G A Schweinfurth. Mrs F W Bradt read a leaflet "Children at Play" and a mite box demonstration was presented by Mrs Harry J Barnhart assisted by a group of the members. Refreshments were served during the close of the program hour.

The next meeting will be in one month and will be a silver tea for the members and their friends.

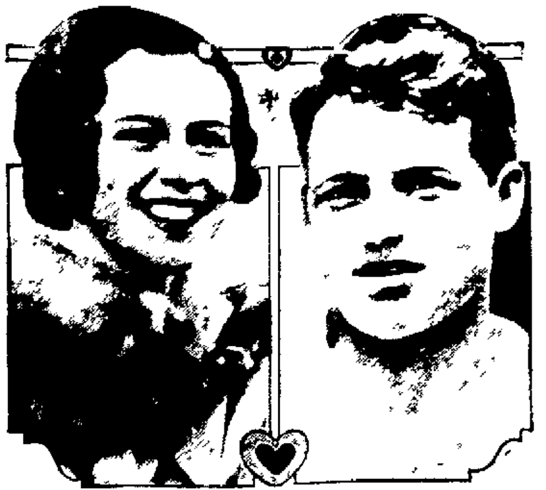
JUNE BRIDAL IN SOCIETY



One of the most brilliant events of the coming society season will be the marriage on June 18 of T Suffern Tailer Jr, son of Mrs T Suffern Tailer, society leader of New York and Newport, to Miss Florence T Baker, granddaughter of the late George F Baker, New York banker and capitalist. Tailer has been amateur golf champion of Rhode Island for the last two years.

Choose Wisely in Makeup for Eyes, Miss Huddleston Says

BY JOSEPHINE HUDDLESTON

THERE seems to be considerable dispute about the use of cosmetics for beautifying the eyes, one of the most frequent points of argument being the use of mascara or dye or darkening the lashes. Therefore let's discuss this point in today's article.

Mascara and dye for the lashes are two distinct preparations. Mascara has been in use for lo these many years but the special eyelash dye is comparatively new.

Using Dye and Mascara

Eye lash dyes dye or stain the lashes a darker color but do not change the texture of the lashes at all. Also such dyes are more permanent in effect, one application of the dye lasting for two or three weeks.

Now let us consider what is thought to be the ultimate in beautiful lashes. Is it not a long, dark, thick, soft fringe around the eyes to make them appear large and luminous?

Coarse lashes are not considered any more beautiful than coarse hair. Bear that in mind when you apply mascara so heavily that the lashes resemble a spiked fence around the eyes instead of a soft lusterous fringe.

Women who have light lashes and wish to make them dark never should use mascara for the purpose. Mascara may be used only on the upper lashes under any circumstances and so, when both the lower and upper lashes need treatment, eye lash dye should be used. This dye should be used for darkening very light eyebrows, too.

Very light lashes should be made darker with a medium brown shade of dye. Light brown lashes will take the dark brown or black dye very nicely.

Mascara forms a hard metallic surface on the lashes when dry. Used on the upper lashes this surface enhances the beauty of the eyes because the light does not strike against the underneath part of the lashes. The light falls on top of the lashes and sifts through them, softening the expression of the eyes.

When used on the lower lashes, however, the light falls directly on the top of the lashes coated with the hard glistening surface and reflects into the eyes, giving them a glittering expression which is far from lovely.

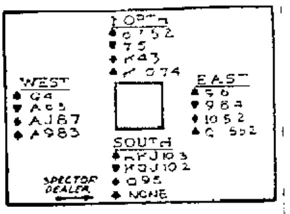
Tips on CONTRACT

SLAM AGAINST THREE ACES

By Tom O'Neil

The lead of three aces has an irresistible temptation to double a slam effort but success at such a contract is a feat of Joseph I Spector of Bridgeport, Conn.

His triumph was due to a wrong guess by the opponent as to the order in which to lead his aces. Here was the hand:



The bidding was south one heart, west pass, north one no trump, east pass, south three spades (a force commanding partner to keep on at least until a game contract was reached), west pass, north five spades, east pass, south six spades, west double, all pass. Most players would bid the higher ranking suit first.

West led the ace of hearts from the shortest of his three suits headed by aces and then guessed wrong. Had he led the ace of diamonds the contract would have been set.

The longer clubs in dummy should have been a warning against the possibility of a ruff of the ace of clubs by south. West, however, led the ace of clubs and the slam was made.

Spector after trumping the club ace exhausted opponents of trumps, discarded the diamonds from the north hand on the hearts in his own, ruffed two diamonds of the south hand in dummy and discarded south's last diamond on the king of clubs.

To Open Mite Boxes.

Annual mite box opening services will be held tonight at a joint meeting of the Woman's Home Missionary society and the Home Guards of Wesley M E church. The meeting will be held at 7:15 at the church. A program will be in charge of the Home Guards.

As he stepped out on to the pavement he saw that Gill had seen—the Garth Aveney with a sudden shrug and [illegible] had switched on his engine again and was driving away.

"P'raps the gentleman has mis[illegible] took the time," suggested Miss Bigger. She had joined them in the doorway. "How would it be if Mr. Gill was to holler after him dearie and let him know you're here?"

Jenny shook her head and moved away. She felt cold in the blazing sunshine and most utterly forlorn. Gill and Mrs. Bigger might watch the slowly retreating car until it turned the corner but she could not.

Gill was walking at her side.

"No sense in letting anyone think you're married when you aren't," he commented in his abrupt [illegible] "I shan't say nothing one way or the other—takes a lot of questions to get anything out of me. But there's no sense in your letting Miss Revell—"

"I'm very glad to let Miss Revell say anything she likes," said Jenny as he paused. "I'm most awfully glad she can make use of me. You needn't consider me, Gill. Thank you though all the same."

Gill grunted. Aveney's car had disappeared, the street was empty. Jenny crossed back to the hotel and went inside. The lounge was cool and held very few people. An intricate gilt clock on the mantelpiece showed 10 minutes to 10. She sat quietly down by the window.

It was after all reasonable to suppose that Garth had found himself ahead of his appointment and had only gone for a few minutes and would return. Reasonable to sit and wait while the gilt hands sluggishly moved to 10 o'clock.

Nevertheless she knew quite positively that he would not come. He had not mistaken the time. He had not been at a loss as to her whereabouts. It was simply that he had arranged to take her motoring and had got as far as her door and then had decided that he couldn't honestly face the prospect of a whole day in her company. Later on no [illegible] he would send some [illegible] ex[illegible]

Why [illegible] he [illegible] her [illegible] Georgie [illegible] couldn't—when [illegible] was [illegible] whom he had [illegible]

"I [illegible] was [illegible] Townsend—" suddenly remembering [illegible] the paper that he had only just got married when he had the accident.

"I didn't know he had one."

"She died. She was a [illegible] girl. Very fair and [illegible] [illegible] I should say to start [illegible] him. If you have [illegible] with that illustrated paper miss I have [illegible]"

Jenny glanced at the clock. It was [illegible] [illegible] though she hadn't heard the [illegible] She got up and left the lounge and went up to her room again. She must [illegible] to the [illegible]

It seemed silly to take off the cool frock and hat but she felt that it would help her to forget what today had promised her and the smart dark dress that Georgie had chosen for her would help her to do what she could—anything he could—to pay Georgie back for all her wonderful kindness. [illegible] adjusted the dress she could see in the mirror the pile of last evening's papers. The Record was still on top.

[illegible] Garth Aveney had read [illegible] news last night [illegible] probably he had read his papers this morning. And they had all told him the same thing—that Georgie whom he loved had married Eddie Townsend. Jenny, shutting her eyes for a moment, her fingers clenched upon her little fluted frills, could hear again the thrill in his voice. "Georgie sent him away. [illegible] night Miss Loyalty. You've been magnificent. He ought to thank [illegible] for you."

No wonder that he had felt he couldn't endure Georgie's [illegible] [illegible] today. No wonder at all. Nothing [illegible] about.

Jenny bathed her eyes, finished dressing and went down to the street. She told herself that it was all done with now, all over and forgotten—that moment when she had stood ignored upon the pavement and watched him fling aside his just lit cigarette, pull his hat down over his eyes, reach for the gear and—escape.

And she told herself that he had been nothing but a fool. She had thought herself if only for a day a golden girl and all the time she was just a puppet, a doll, a silly little figure moving grotesquely in the shadows of Mrs. Bigger's copper urn.

Drawn up before the building in which was Georgie's flat Jenny saw an ambulance. Evidently Eddie had been brought home.

She halted in her step, then went steadily forward. [illegible] Georgie hesitating [illegible] bad news about Ed[illegible] Jenny had given only a passing th[illegible] Eddie Town[illegible] end. She rem[illegible] [illegible] now [illegible] mor[illegible] that [illegible] had not even asked wherein [illegible] had news. [illegible] Perhaps he w[illegible] permanently in[illegible] [illegible] a cripple [illegible] into a run.

There were [illegible] of idlers near the ambulance [illegible] the main hall was empty [illegible] was in Gill's little off[illegible] [illegible] some one whose voice w[illegible] in the ex[illegible] asperation Gill [illegible] pro[illegible] voked.

"I tell you I [illegible] here yesterday—I asked to see M[illegible] Townsend or Miss Revell. I [illegible] know which was which — [illegible] told me yourself the [illegible] their apartment. It's [illegible] waste of time pretending [illegible] never seen me before."

Silence from Gill.

"Miss Revell her[illegible] informed me that Mr. Townsend was at some hotel or other. It's n[illegible] ask[illegible] ing me to believe you don't kn[illegible] which one it is. All I want you to do is to phone that hotel and tell the lady that M[illegible] Townsend [illegible] insisted on going [illegible] right up to their apartment [illegible] We[illegible]"

"Don't kno[illegible] about any thing—" from Gill implacably.

Jenny [illegible] the office. Gill was looking as wooden as a ship's figurehead. The man who faced him turned [illegible] scrutinized Jenny instead. He was the doctor who had rendered first aid to Eddie on that horrible pavement.

"Mrs. Townsend, I understand," he exclaimed.

"You don't understand it from me," put in Gill.

The doctor's quick glance went from Gill to Jenny. His eyes were intensely inquisitive, she thought, and his voice was far too familiar.

"Your cousin told me your marriage wasn't secret, Mrs. Townsend, but there seems to be a lot of mystery made about it down here. I must have been kept hanging about here for nearly 10 minutes. I'm beginning to wonder—"

"Is your patient upstairs?" Jenny asked.

The doctor flushed. Jenny had spoken in a tone that she had not used for a very long time, not since the days when she lived in her grandfather's house and wore faded ginghams and hunted for eggs in the overgrown garden—and was all the same Miss Georgina Revell to whom nobody might be impertinent, ever.

"Heart of a Wife"

BY ADELE GARRISON

Madge and Lillian Are Encouraged When Madge's Father Offers to Join in the Search for Marion and Carolyn

MARY'S only comment when I handed her the telegram I had written to Hugh Grantland was to say quietly, "I'll send this and no one shall see it." But at the door she turned hesitatingly.

"What about Ronald, Auntie Madge?" she asked. "Ought we to wire him at New H[illegible]n? He'll be crazy over this, all the more because I'm sure he didn't forgive Marion before he went back."

"That isn't in our hands, Mary," I said regretfully. "Marion and [illegible] are not engaged you know and we can do nothing. The Brixtons will notify him if they wish him to come down."

"I suppose so," Mary said, but there was distinct rebellion in her tone. She opened the door and was [illegible] through it when she came back in and asked tensely:

"Oh Auntie Madge! What do you think has happened?"

"I don't know, Mary," I answered, "but we can think of that on the way down. Just now we mustn't waste a minute. Is your bag packed?"

Talking With the Chief

"I always keep it partly packed," she rejoined, "and it will take me about ninety seconds to throw the last things in. I've laid out all Mrs. Underwood's things on the bed in her room beside the bag. I'll hurry back and help you."

But by the time she returned I had my bag packed, closed and strapped, Lillian's all ready for the final closing, with a mental inventory of everything in it ready for recital to her, and Dicky's in the same condition. I had kept my ears open for Lillian's telephone conversation but there was a slight delay in the service and I had finished and come out into the living room before I heard her say:

"Chief, is this you?"

I knew that she was talking with my father on his private wire—he always has indulged himself in that luxury—and that thus we could keep all knowledge of this catastrophe from the rest of the household. I gazed at her in astonishment as with no hint of anguish or even excitement save for a certain strange roughness in her voice she told him in the fewest possible words of the disappearance of Marion and Carolyn from the school and of our imminent departure for Whitney Hall.

"Harry is getting hold of Wynne and Broc," she said. "They will be down there tomorrow morning. But I wanted your advice. What do you think?"

She stopped abruptly and her face lightened as she listened to his comments at the other end of the wire.

"Oh!" she ejaculated. "That will be wonderful Madge," turning to me, "your father says he will be down there in the morning also. Yes," turning back and listening intently—"yes, I'll tell them that. I think so, too. Do you want to talk to Madge?"

She held out the receiver to me and I took it, saying as I [illegible]

"Hello, father dear, are the children all right?"

"They couldn't be better," he assured me. "Everything is going splendidly. I shall tell Katherine about this but not your mother-in-law. Where can Katherine get us by telephone if she needs us?"

I gave him the telephone number of Whitney Hall and heard his voice like a benediction.

"Good night, darling. I'll see you tomorrow."

"Good night," I said and hung up the receiver. Lillian came back from the rest room as I did so.

"What did you put in my bag?" she asked.

I recited its contents to her and she checked them off on her fingers.

"Perfect," she exclaimed. "There's room for one more gown and an extra sweater and I'll put them in now. Will you find out if the rest are ready?"

She was taxing every bit of her strength to keep her self-control and I was glad indeed when Dicky and Mary came into the room together, Dicky carrying Harry's bag.

"All set with the luggage?" Dicky asked.

"Yes," I said, for Mary had dashed into the bedroom and having experience with her swiftness of movement I knew that my answer would be true to her in another minute.

"Then," Dicky said, "I'll telephone for a bellboy and also see that the car is at the door."

Off for the Search

"You can save your energy, Mr. Underwood," said from the door. "The car is ready and the bellboys are here. Get on your wraps and we'll start."

It was less than five minutes before the car rolled away from the hotel with Harry Underwood in the driver's seat and Dicky beside him, Lillian, Mary and I were on the back seat of the big seven passenger car with part of our luggage tucked away in the big trunk on the back and the rest serving as footstools in the big rear compartment.

We were going through the Holland Tunnel when Lillian spoke for the first time since we had left the hotel.

"Ask Harry, Dicky," she said tensely, "just what Dr. Barnes said over the telephone."

In France the condition is [illegible] Music is considered [illegible] thing of a luxury and no one takes any real interest in its promotion.

In America one goes to hear good music just as one takes his faith [illegible] church. It is treated [illegible] necessary thing. And to think that over here in Europe we had always heard that the Americans were not musicians! I played before great audiences where nobody was allowed to cough much less to leave before the end. What a lesson for our French audiences.

What Monsieur Wiener did not like on the other side was the hustle and bustle together with the tragedy of prohibition.

LA GUARDIA FLAYS POPULAR DRY POLL

New Yorker Tells Cincinnatians Referendum So Much Bunk

By The Associated Press

CINCINNATI O May 6—Talk of a popular referendum on prohibition was termed so much bunk by Representative F H La Guardia Republican of New York speaking here last night

Flaying equivocation on the part of politicians and demanding repeal of the eighteenth amendment LaGuardia declared the only solution to the liquor problem is constitutional amendment

No such thing as a popular referendum is provided for in the constitution he said and any one who suggests such action casts doubt on his sincerity

The New Yorker addressed a meeting sponsored by the Crusaders anti prohibition organization

LaGuardia said he is not in favor of the saloon but I also am not in favor of making every home in the country a still or a brewery

Organization of Colored Groups Urged by Speaker

Washington D C Man Tells Audience Negro Can Gain Recognition Only by Organizing and Preparing for Opportunities, 200 Attend Meeting in Star Auditorium.

Only by organization can [illegible] group expect [illegible] recognition and [illegible] Jefferson S Coage, Negro speaker of Washington D C told between 150 and 200 [illegible] who [illegible] the Star Auditorium last night [illegible] a movement obtaining [illegible] man a more active part in the affairs of the city and county.

[illegible] members of the city [illegible] the board of health [illegible] the police [illegible] Coage said [illegible] can do so only by organizing and by preparing to [illegible] citizens that you are qualified for these places.

Joseph Pleasants chairman of the Council of Ten a group of local colored men who sponsored the appearance of the Washington man here last night explained the purpose of the meeting and of the organization the obtaining for the colored people of the city and the surrounding country more recognition in city and county affairs.

All Created Equal

God made every man equal, Mr Coage told the audience. He never fixed a spot beyond which any of his children could not go. But the only way in which the colored man can gain further recognition is by winning his place through organization.

He urged the organization of all colored persons in the city for the purpose of improving themselves and their conditions and to make a study of city and county affairs in order that they might be qualified to take their place among the leaders.

The home was given as the foundation on which these attainments will largely depend. Good home surroundings, good schools and good churches the speaker said will produce good men and women. Without all three no person can have a properly balanced character. Good schools and good churches can only make two thirds of a man [illegible].

In an address of [illegible] W C Phillips [illegible] was glad to know of the interest [illegible] being taken by the colored [illegible] in the affairs of the city and would be glad at any time to do all in his power to help in the advancement of their cause.

Dr Sawyer Speaks

An appreciation of the new interest on the part of the colored people was also expressed by Dr Carl W Sawyer who spoke for a few minutes before the termination of the principal address.

He said he was glad to learn of the plan for the organizing of the colored people into a group for the purpose of taking greater interest in the city. What they can accomplish he said would depend upon how much of themselves they would be willing to give to the cause.

The meeting was opened with invocation by Rev W H Th[illegible], pastor of the Metropolitan A M E church at Washington D C. A vocal solo by Mrs Paul [illegible] provided a pleasing variety to the program which closed with the benediction by Rev J Rollins of Marion.

Mr Coage was appointed recorder of deeds by President Hoover in 1930.

"THE WET PARADE" ONE OF BEST FILMS IN RECENT MONTHS

A timely theme, excellent acting and expert directing make "The Wet Parade" one of the best pictures that has been offered the public in many months. The picture will close Saturday at the Palace and anyone who hasn't seen it by then will have missed an important talking picture.

Those for prohibition and those against prohibition will find food for thought in the picturization of Upton Sinclair's novel by a splendid cast. Dorothy Jordan whose wealthy father of the southern aristocracy Lewis Stone kills himself because of drink, and Robert Young whose mother Clara Blandick is killed by his father Walter Huston in a fit of insane drunkenness from bootleg alcohol are the young people who fight for their very lives to keep their loved ones from drink.

The story moves from the aristocratic plantation home before prohibition to New York City. Dorothy's brother Neil Hamilton is a writer and inherits his father's love of drink. She follows him to the city, tries to protect him from drink and meets Young whom she later marries. Woodrow Wilson is reelected, war is declared and while the men are over there the prohibition law is passed.

The development of the bootleg racket is pictured. Young's father has been sent to prison for murder and the young man joins the prohibition forces only to be disillusioned by the graft, police interference and public sentiment. His brother-in-law Hamilton is blinded by bootleg Kentucky Bourbon which is showed in the making and Young narrowly escapes death at the hands of the bootleg gangs.

Hope for the future generations expressed for his newborn son closes the story. The climaxes are gripping and the story never lags. Jimmy Durante as a prohibition agent with a keen sense of the futility of his job is fine. Myrna Loy, Wallace Ford and John Miljan make the most of their roles. The picture offers just enough comedy touch to relieve the tension of the gripping story as it unfolds.

Laboratory discoveries prove value of Kellogg's ALL-BRAN

Here's why ALL-BRAN belongs on your table

IN THE past few months, many new scientific findings indicate that ALL-BRAN is a valuable addition to the daily diet. These laboratory investigations show that ALL-BRAN is an important source of two things needed to overcome constipation. "Bulk" to exercise the intestines. Vitamin B to tone the intestinal tract. (You will be interested in reading some of the results of these tests in the panel on the right.)

"Bulk" and vitamin B will help protect you from constipation and its effects—the headaches, the loss of energy, the poor appetite, the sleeplessness, the backaches, the wrinkles that so frequently result.

Now, in Kellogg's ALL-BRAN, you have both "bulk" and vitamin B in one delicious cereal. The "bulk" in ALL-BRAN is much like that in lettuce. Within the body, it forms a soft mass, which gently clears the intestines of wastes.

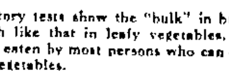
Moreover, ALL-BRAN furnishes iron for the blood. Tests prove that this famous health-cereal provides twice as much assimilable iron as an equal amount by weight of beef liver.

Isn't it much pleasanter to enjoy this appetizing cereal than to risk taking pills and drugs—so often harmful and habit-forming?

Try two tablespoonfuls daily—usually sufficient to overcome most types of constipation. If you suffer from a severe intestinal trouble, we suggest you consult your physician.

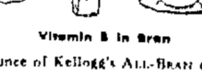
Special cooking and flavoring processes make ALL-BRAN particularly healthful. Tempting recipes on the red-and-green package. Made by Kellogg in Battle Creek.

Here are some of the results of recent laboratory investigations of bran



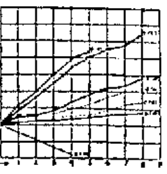
The Bulk in Bran

Laboratory tests show the "bulk" in bran is much like that in leafy vegetables. It may be eaten by most persons who can eat these vegetables.



Vitamin B in Bran

One ounce of Kellogg's ALL-BRAN contains 45 vitamin B units, as much as that in one very large apple or 5 ounces of orange juice.



This chart* shows the effects of daily additions to the vitamin B-free basal diet of laboratory rats: (a) none, (b) 0.6 gm. prepared bran, (c) 1.6 gm. prepared bran.

Iron in Bran

Tests show bran provides twice as much blood-building iron as an equal amount by weight of beef liver.

MANY FEATURES FOR NEW SHREDDED BISCUIT

Kellogg's WHOLE WHEAT Biscuit Set New Standard for This Type of Cereal

Local grocers are featuring a new shredded biscuit developed by the Kellogg Company of Battle Creek, Michigan, which is a decided improvement in many ways. The improved Kellogg biscuit is "pressure cooked" by a special process that retains the complete food value of the whole wheat. At the same time, delightful flavor is *baked in*.

Other improvements are a biscuit of more convenient, economical size. Two of these new biscuits just fit the cereal bowl. You get 15 to the package instead of the usual dozen. And every biscuit is toasted a rich golden brown on both top and bottom—not just one side. This makes them exceptionally crisp.

These new biscuits have been analyzed by the Medical Arts Laboratory of Philadelphia and found to be so rich in food value that every package is certified. Any mother can now be certain her family is getting a well balanced food with these new Kellogg biscuits.

Kellogg's WHOLE WHEAT Biscuits are tasty for breakfast, lunch, children's suppers. Extra good with fruits or sweetened with honey—in addition to the milk or cream.

You can identify these new biscuits by the name Kellogg's and the familiar red-and-green package. Made by Kellogg in Battle Creek.

New Wonder-Working Movie Devices in Use

By International News Service

[illegible]WOOD—Every time the voice of Greta Garbo en[illegible] an audience in a motion [illegible]eater it is partly be[illegible] Miss Garbo has a pleasing [illegible] partly because scientists [illegible] have discovered how [illegible] voice over miles and [illegible] and record it on the [illegible]

[illegible] curious results of engi[illegible] will came to light in the [illegible]cording rooms where [illegible] Miller, chief recording en[illegible] and Douglas Shearer, the [illegible] of recording, have just [illegible] their 85th basic im[illegible]tion sound devices.

[illegible] electric power plant you [illegible] Miller explained, pointing [illegible] room full of humming dy[illegible] would light a city of 85 [illegible] But here you see [illegible] this electrical power is [illegible] to operate [illegible] held up a small device the size of a half smoked cigar fitted like a fine watch with small screws and wires. The device was a light valve through which sound is placed on the screen.

The power from the dynamos properly refined by a house full of apparatus exactly like a huge radio causes a thin wire to jump back and forth across a slot in the metal. And that with some tens of thousands of other pieces of apparatus is the secret of the light valve.

Old Style Discarded

The old style talkie camera built in a bungalow to cut out noise was discarded some time ago when we found that the huskiest known cameraman could live only 11 minutes inside this bungalow, Miller said.

We discarded the old style gas pipe microphone in order to stop the swirling sound waves that bounced off this microphone and slurred the voices of the actors. Its successor was the bomb microphone.

It was first used on a Marie Dressler picture. An untrained electrician attached the microphone to a 220-volt power line and burned out the whole inside. When Miss Dressler and the rest of the people on the set saw the smoke curl out of this bomb-shaped device they broke down the doors in getting away.

"Johnny Weissmuller in Tarzan was the first star to use the new portable sound camera equipment. We built this machine weighing 350 pounds and so small it can be carried in a coupe and replaced an old portable outfit that weighed 10 tons and traveled on three trucks.

The first experiment in letting the full power of a man's voice go on the screen was in Lawrence Tibbett's Rogue Song. In that picture it was shown the public likes lots of sound providing the sound is free from irritating overtones. Such a sound we call clean."

WHAT A MAN he's going to be!

He plays outdoors in the fresh sunshine. He sleeps like a top. And how he eats! Watch him as he dips lustily into his Rice Krispies and milk and does *his* part towards building a strong body and rugged constitution.

Kellogg's Rice Krispies are a cereal that fascinates children—and one of the *best* they can eat! Crisp, nourishing rice bubbles that actually crackle in milk or cream.

Serve for breakfast, for lunch—for the evening meal. Kellogg's Rice Krispies are so easy to digest, they invite restful sleep. How much better for youngsters than so many hot, heavy dishes.

Always oven-fresh in the red and green package with the *sealed* inside WAXTITE bag. At all grocers. Made by Kellogg in Battle Creek. *Quality guaranteed.*

OFFICER WORKERS GET CLOTHES TIP

Dress Lightly To Aid Efficiency Is Advice.

By International News Service

CHICAGO—For the sake of efficiency office workers of the future will wear less clothing according to Dr. E. V. Hill, heating expert. Temperatures of offices will be maintained at higher levels he predicted.

Dr. Hill's forecast was based on 1400 dexterity tests on individuals in temperatures ranging from 50 to 100 degrees. It was indicated that workers are most alert when dressed lightly and in a temperature of approximately 76 degrees.

"All our subjects underwent the same test of distributing 250 assorted articles in designated places," he said. "Each subject was tested in varying temperatures and in various types of clothing ending with a nude test.

"It was discovered that when the subject was nude the time required for the task decreased as the temperature increased to a maximum of 86 degrees. Beyond that point the worker's efficiency was reduced.

"For practical purposes we are led to believe that temperatures of approximately 76 degrees are most suitable providing the workers wear very light clothing."

Golden ANNIVERSARY SALE
☆ ☆ KROGER CELEBRATES 50 YEARS OF SERVICE ☆ ☆ ☆

When Chester A. Arthur was President of the United States B. H. Kroger was a coffee merchant. From house to house he went with that little red wagon, supplying hoop skirted women with good coffee.

One night B. H. Kroger had a vision—a vision of a great chain of stores in which he would sell besides good coffee quality foods of every description. And so the first Kroger Store was born—clean attractive businesslike—but above all stocked with foods that WERE foods.

Today 4883 Kroger Stores are distributed throughout the great Middle West. Each has come to mean more than a place in which just to buy groceries. Women have told us that for some reason or other they can be depended upon.

If we were to put our finger on that reason we would be inclined to say that into them and their managers has been bred the principles of store keeping as practiced by our founder.

TICK ON CONTINUES FAVORITE IN ANNUAL KENTUCKY CLASSIC

Injuries Cut Starting Field, Rain Expected To Reduce Usual "Gate"

By The Associated Press

[illegible] May 6—It's [illegible] race in America [illegible] stirs the imagination [illegible] racing public this [illegible] but its fifty-eighth [illegible] around the [illegible] at Churchill Downs [illegible] of its customary [illegible] of its usual [illegible]

[illegible] very reason that the [illegible] wide open than in [illegible] better and more [illegible] if no more than [illegible] the hurried [illegible] only real [illegible] of the [illegible] unquestionably struck [illegible] Kentucky [illegible] the great filly [illegible] winter book favorite [illegible] Western Star and [illegible] of the [illegible] withdrawn. And [illegible] the gate had not [illegible] the blow coming, the [illegible] it looks like [illegible]

Tick On Favorite

Tick On, the handsome black [illegible] of On Watch and star of the [illegible] owned by Mrs Louis [illegible] Kaufmann of New York is the [illegible] thing now to a standout at [illegible] to 1.

[illegible] Tick On was defeated in [illegible] three year old start [illegible] only three of its ten starts [illegible]

[illegible] earlier than usual and [illegible] to the Preakness for the first [illegible] in years the derby may [illegible] a new three year old [illegible] but the railbirds do not look for anything approaching Twenty Grand's record performance of [illegible]

While surprises are being considered it may be well to keep an eye on Hoops, a chestnut gelding owned by W. F. Knebelkamp. This horse not previously considered in the derby calculations came tearing down the stretch at the Downs yesterday to win a claiming race at a mile in the startling time of 1:37 3-5. Immediately its owner announced Hoops would be entered in the $50,000 classic along with Adobe Post owned by C. H. Knebelkamp and Richard Morris.

Pick Your Winner

The consensus however is that the derby winner likely will be found among these four entries:

Tick On.

Burgoo King paired with Brother Joe as Col. E. R. Bradley's entry.

Economic, the speedy property of J. H. Louchheim.

Stepenfetchit coupled with Over Time as the entry of Mrs. John Hay Whitney, the former Mary Elizabeth Altemus of Philadelphia, whose colors appear in the classic for the first time.

Two of the greatest jockeys of all time will ride Mrs Whitney's entries. Buddy Ensor making a big come-back will be astride Stepenfetchit. Ensor has never won a derby. Earl Sande will have the leg up on Over Time. He has won three derbies and will set a record if he boots home another.

The three D's stable of Fort Worth Texas has a long shot contender in Liberty Limited but this bay colt's chances can not be overlooked despite uncertain workouts and tender feet.

Not more than 12 to 15 three year olds were expected to be drawn for [illegible] today after the posting of final entries.

A FRANK CONFESSION
—A STATEMENT BY THE GILLETTE SAFETY RAZOR COMPANY

THE Gillette Safety Razor Company feels called upon to make a confession and a statement that are undoubtedly unique in the annals of American business. We want to tell you frankly what actually happened when we introduced a new Gillette razor and blade.

Soon after this was done, we found that, although the great majority was pleased, some users complained quality was not up to standard.

We learned why. Our equipment had not been equal to the task of producing millions of blades at high speed without a certain variation in quality that affected a small portion of our output. As a result some blades that left the factory were not as good as you had a right to expect. Immediately we directed our principal effort toward the achievement of uniformity. Everything within our power was done to end variation. We discovered and purchased for our exclusive use and at the cost of millions of dollars a manufacturing process that was amazingly superior to our own.

By this method, modern and automatic, millions of blades can be made at top speed without variation in quality.

Now we announce today's Gillette blades, made by the new management. The usual superlatives have no place in this sincere statement of ours, so we will let the quality of the blades speak for itself.

We have been supplying these blades long enough to be reasonably sure that every dealer in your district now has them. The green Gillette package remains unchanged, but the blades are new in every respect, quality, performance, and method of manufacture.

If by any remote chance the Gillette blades you buy do not give unusual shaving comfort you can be sure a package of old blades has fallen into your hands. In such a case we ask your indulgence. Please return the blades to us (and we will replace them with our latest product) or take advantage of our guarantee as stated below.

You can try today's Gillette blades without risking a cent. If you don't agree they are superior, return the package and your dealer will refund your money. **Our reputation depends upon the proof of these claims. Being absolutely certain of the quality of these Gillette blades, we do not hesitate to make this statement over our signature.**

The Gillette Blue Super-Blade
The $2 Kroman De Luxe blade has been withdrawn from production. We offer the Blue Super-Blade as its successor. This sensational blade is far superior to the Kroman and costs considerably less. You pay only a few cents more than for the regular blade and get unmatched shaving comfort. **The Blue Blade is positively the sharpest blade we have ever manufactured and is made by a different process.** A blue color has been applied to the blade for easy identification. It is contained in a blue package, Cellophane wrapped. The Blue Blade is especially made for those who appreciate super excellence.

MY, BOBBY, DID YOU EVER SEE SUCH FOAMY LATHER! I DON'T KNOW HOW I'D EVER GET YOU CHILDREN CLEAN WITHOUT KIRK'S COCO HARDWATER CASTILE!
PLEASE, MOTHER, CAN I HAVE A SHAMPOO? IT MAKES MY HAIR SO SOFT AND NICE
SAVE PLENTY OF SUDS FOR ME, MOTHER I SLID HOME ON MY EAR!

Clean as a whistle

When rough-and-tumble youngsters rub the dirt right into their skins—*and they all do*—it takes lots of good lather to get it *out* again! Ordinary soaps don't dissolve *freely* enough—especially if the water is the least bit hard. They give a sticky lather, leave a dirty, soapy film on skin and hair. What's needed is a *special* soap—and no soap softens and loosens dirt in *any* water like Kirk's Coco Hardwater Castile

Oceans of lather—Instantly!

Here's the difference. *Kirk's is made from 100% pure cocoanut oil.* It bursts into lather *instantly*—even in the hardest, coldest water. It rinses off *completely*—leaving skin and hair as fresh and clean as a spring morning. Body odors disappear like magic. Try it today—for hands, for bath, for a wonderful shampoo. *And for economy!* Of the four leading toilet soaps, Kirk's is half again larger *yet the price is the same!* **Avoid Imitations. Look for the arrows. Always ask for Kirk's by *name***

Largest Soap Makers in America

Quality at a Bargain
3 for 25c

Even the costliest imported toilet soap couldn't give you more pure lather than you get from a cake of Kirk's Coco Castile. It lathers *instantly*, in hard or soft water, because it's made from

Key Speaks Frankly

JOHN A. KEY,

Candidate for Congress

DOES NOT BELIEVE IN EVADING PROHIBITION QUESTION

It is generally accepted that so far as candidates for Congress are concerned their attitude on the prohibition question is to be a deciding factor

I stand where I have always stood on this question As Congressman from this district at the time of its adoption I opposed the 18th amendment The same philosophy that guided me then prompts me now I stand for a proper regulation by law and believe in the promotion of temperance through education No fair minded person acquainted with the trend of times has any fear of a return of the old saloon

I have always stood for the right of people through referendum But I agree that a mere statement to this effect does not let you know a candidate's attitude on the prohibition question I go further I am opposed to the principle set in force through the Eighteenth amendment and would if nominated and elected be for a change

While I stand for the majority rule as may be expressed through referendum in the interim I am in favor of modification in accordance with the suggestion of many of the best minds among the leaders in education as well as those in the medical and legal professions This would give us a legal substitute for the poisonous stuff now demoralizing the health and morals of the people Besides it would greatly relieve the present tax burden through the payment of hundreds of millions to the government in revenue

All public expression obtainable today makes it plain we will have the change soon Then why not now when the government is so sorely in need of the revenue It would be a boon to industry and agriculture as well I stand for the change with proper safeguards because I believe in it in principle and because it is the [illegible] thing to do at this time

We have had twelve years of operation under the Eighteenth amendment and resulting laws There is no question as to the attitude of the people upon this subject It has increased crime and filled the jails lowered the standards of morality contributed in a large measure to our present deplorable economic situation produced an army of bootleggers and racketeers made conditions worse for labor and denied to the farmers of the country markets that formerly existed for the products of the farms Such a condition is demoralizing to good government

To bring about the wish of the people on the prohibition question and give all possible relief from this present tax burden are two paramount issues to me in this campaign and on these I believe I have made my attitude clear

The campaign has practically drawn to a close and to my knowledge no other candidate up to this hour has definitely stated whether he is for or against any change on this question.

Sincerely
JOHN A KEY

Tells Why He Stands for Change in Accord With Idea of Many of Best Minds of Nation.

Tax Burden Relief, Too

Through Hundreds of Millions Paid to the Government in Revenue He Says.

Stands for Referendum, But Believes in Interim There Should Be Modification.

If you believe in being represented in Congress by one who is not afraid to speak frankly to the voters and act fearlessly in the performance of his duties in Congress then vote for John A Key of Marion candidate for Congress in this district at the coming Democratic Primary

A ance as Unfavor- port Is Made of Bonus Bill.

Associated Press
N Y 6—Wall s reet ... ole encourage the renewed ef ... n to bala ce the d the unfavorable ... use ways and ... on the bonus bill fair recoveries al ance was in'ers ... s by hangover ... erous leaders pushed up 1 to 3 points in the early dealings then slipped back, only to resume their advance before midday. By early afternoon, there were numerous issues up 1 to more than 3 points.

Issues up 2 to 3 points included American Can, American Telephone, Santa Fe, Air Reduction, Coca Cola, Union Pacific, Public Service of N J, American Tobacco "B", Auburn and Peoples Gas. Others were again conspicuously firm with gains of a point or more appearing in Standard of N J, Shell Union preferred and Ohio Pan American. ... a highly traded issue which sold Tuesday off 5 points, regained its loss today. U S Steel and many other prominent issues advanced more than a point. General Motors rallied a major fraction.

While the sharp increase in income taxes proposed by the senate finance committee were viewed with some uneasiness, leading bankers have been so insistent upon the imperative need of balancing the budget as a pre requisite to economic recovery that a hopeful view was taken of the progress made.

In theory at least inflationary measures such as the $2,000,000,000 soldier bonus bill should favor advancing prices for equity shares but leading banking quarters feared any excessive inflation would be highly disturbing.

WHEAT PRICES SLIP LOWER

Liverpool Quotations Favorable Weather Both Exert Bearish Influence

By The Associated Press

CHICAGO May 6—Grain prices averaged lower early today influenced by Liverpool wheat quotations lower than expected. Generally favorable weather in domestic winter wheat territory was also a bearish factor. Opening ¼ ... down, wheat afterward rallied somewhat. Corn started unchanged to ⅛ off and subsequently held near the initial figures.

Rallies which took place in wheat lifted the market to a cent or more above yesterday s finish.

Bulls in wheat put some stress on an authoritative survey indicating that low stocks in Europe and relaxation of import restrictions would make for heavier international trade during the period between July than in recent months. It was asserted North America would be called upon to supply a large portion of Europe s requirements.

NAMELESS ADS USED BY ONTARIO BREWERS

Ingenuity Finds Way To Get Around Liquor Board s Rules

By International News Service

WINDSOR Ont The Ontario liquor control board has strict regulations banning any advertising by brewers, distillers ... So severe ... of the board that ... manufacturers of beverage alcohol have been pun... for minor infractions of the advertising ban.

But ingenuity will find a way. And the brew brewers ... They advertise without their names but in such a way that something, a bottle opener or a ... a peculiar type carton will cause the consuming public to think of their products.

One brewer recently put out a new type carton which had handles similar to those on a handbag making it easier for the tired beer drinker to lug his package of liquid joy home from the government s sale store. Now another has devised a series of small round blotters—just the things to keep the bottoms of bottles from marking furniture and table tops.

The blotters contain cartoons, of course with no trade name, and advice on how to take ... the beer.

Yes the advertising pays but the beer makers can t say so officially—that would be against the rules.

The exploitation of natural gas resources in Russia has been made a state monopoly.

Few Changes in Lineups of Prospect, Erie Teams

Note: This is the twenty third of a series of stories concerning the prospects of the various city softball teams.

* * *

BY BOB KIRKPATRICK
Sports Editor, The Star

If sticking to your guns means anything in softball it is just about time for the Prospect Firemen to come through for a Commercial league championship. The firemen have been playing in the Friday night circuit here since way back when but the best they have been able to do is tie for second. The Firemen will be back this season ready to take up where they left off in 1931 depending on practically the same lineup as in previous seasons.

Dutch Lauer the diminutive right hand flinger who has been fooling batters ever since the team started playing, will be back in the harness to do the tossing. In all probabilities he will have no help. Prospect has depended on one pitcher for a long while and has not yet dug up a second one for this season. Big and Heavy [illegible] Johnson will probably do the catching despite some reports to the contrary.

Rodman on First

Johnny Rodman the only addition to the lineup is expected to replace Tubby Lauer on first. Lauer having decided to drop from competition Paul Hoover will be at second, Cyrus Chapman at shortstop and Stanley Winnett at third. The only problem this infield will offer will be how to get a ball past the infield.

The outfield will be chosen from Mounts, Merlo, Gus, Carl Seiter, Dick Howser and Don Baumgartner.

When the 1932 campaign is completed Prospect is a good bet to be up in the first division. But champions—well that will be decided later.

Inability to connect for base hits when base hits were needed cost the Erie Traffic club a possible championship last season in the Commercial loop. The railroaders sailed along near the top most of the summer but ran into some tough opposition near the end and suddenly did a skid into fourth place where they finished the season.

Bob Adams manager of the railroaders is of the opinion he [illegible] to keep in and [illegible] the [illegible] safely this year and for that reason has [illegible] very much in the fight for the title.

Mostly Veterans

Adams will have a few new men for the team this season but will depend chiefly on his leftovers of last year. Don Shoemaker one of the all [illegible] ace hurlers will draw the starting mound assignment with D[illegible] [illegible] in the relief role. John [illegible] will probably be the first string catcher with H. Sinter and Paul Wheeler in the utility roles.

Adams will take care of the first base post himself with Ray Holl[illegible] slated for the keystone sack. George Parr will be at third and either C. B. Gendert or Carl Hoffman at shortstop. C. C. Bruce will be in left field and Tom Wogan in the center pasture. Either Ray [illegible] or [illegible] Kellogg will patrol the right side of the outer garden.

COLUMBUS PITCHING NOT MEASURING UP

Batters Producing Hits, but That's Not Enough, Brewers Win, 7-4.

By The Associated Press

CHICAGO, May 6—If the St. Louis Cardinals send their American Association junior varsity club at Columbus some good pitchers the Red Birds are likely to become extremely tough to beat.

The talent other than hurlers is providing base knocks in large quantities but the pitchers have not measured up. Ten of their throwers have participated in four or more games but Columbus today was in fifth position with 11 victories and 10 defeats.

Paul Dean and Al Grabowski looked best in the records the former having won and lost two in five games and the latter having won two and lost one in five games.

The Red Birds yesterday outhit Milwaukee 11 to 8, but took a 7 to 4 beating when the Brewers clustered their blows.

Kansas City regained sole possession of first place by defeating Toledo 9 to 5. Belve Bean was left in the box all afternoon and was pounded for 16 hits by the Blues of which six were doubles and one a triple.

Rain caused postponement of the Louisville-Minneapolis and Indianapolis-St. Paul games.

INSPECTION IS HELD BY NEVADA LODGE

NEVADA, May 6—The annual inspection of the Pythian Sisters was held Tuesday night with Mrs. Elizabeth Pristol, district deputy grand chief of Findlay, acting as inspecting officer. A gift from the temple was presented Mrs. Pristol by Mrs. Inez Winter.

RICHMAN BROTHERS
ESTABLISHED 1879

We NEVER have "Special Sales" but ALWAYS have SPECIAL VALUES

Why not? Don't we specialize in value? Aren't we the makers? Haven't we done away with the middleman by selling our own clothes in our own stores?

And don't we buy more materials than any other clothiers in America? Don't we sell more? Don't we carry larger selections? The answer to all is WE DO.

Can there be any question as to whether Richman Brothers is the best place to buy your clothes? Answer this yourself.

GRAVES UNDER ROOF IN OLD CEMETERY

BERLIN Md—The quaintest cemetery in the United States is located on the Mason Dixon line at Bethel church northwest of Whaleyville near here Peaked shingle built roofs instead of imposing marble monuments mark the graves This unique cemetery is thought to be about 200 years old

As if to protect those buried there some one decades ago constructed peaked shingle roofs over the graves These shelters are about three feet high in the middle the sides touching the ground Built of cypress wood and shingles these roofs run the length of the graves forming their only location as no mounds are visible Some of the lumber has rotted by this time but the form and general shape of this village of the dead still remain

ENGLAND WARS ON DRUG ASSAILANTS

LONDON—Attacks on women and girls by men who surreptitiously drug them and carry them away have reached such alarming proportions that Scotland Yard plans to send out a squad of plain clothes women detectives

Hundreds of women have been drugged by the slight prick of a needle in the last few months The attacks are often made on them in the most public places while riding on a bus or shopping in a crowded store Sometimes they are unaware of the needle They grow faint and are assisted away by the attacker

Purse snatching thieves who knock women to the pavement have long been one of London's most troublesome criminal types but the drugger is even more dangerous and harder to catch One even decoyed a woman to a church on the pretext that she was wanted to help with the cleaning operations inside There she was drugged and attacked

SEEKS FISH INFORMATION

LANSING Mich—Through the use of creel census cards the state department of conservation expects to determine the best seasons bait and places for fishing in Michigan Fishermen will be asked to note on their cards the species of fish caught the time of the year the bait used and the place caught

Representing What?

A disappointed congressman who had worked hard to save the mutilated economy bill passed by the house of representatives Tuesday night voted against it on the motion for its final passage and sadly explained. The action of the house goes to prove that organized minorities propagandists and bureaucrats have control of this government and that representative government is dead.

There is need for federal economy. The budget cannot be balanced by taxes alone. There is a great popular demand for reduction of federal expenditures. To what effect in the popular branch of congress? A bill drawn to take less than 10 per cent away from the expense of the federal government in 1933 is ripped to pieces [illegible]. It is sent to the senate in a form to save a little more than $40,000,000—less than one fiftieth of the expected expenditure.

Yes, representative government as [illegible] conceive of it is dead. It never lived outside the minds of a few sturdy congressmen who qualified as true aristocrats because they dared to think instead of to grovel with their ears to the ground. The plain fact is that Americans aren't willing to be represented; they want their congressmen to be transmitters—not thinking representatives who speak and vote their own convictions.

Why do organized minorities propagandists and bureaucrats rule the people's representatives? Because they represent organized blocs of votes and the people have filled congress with men who are subject to rule. Servile characters are common because they aid political survival. Congressmen know that unless they obey the voice that speaks their jobs will be given to some one else who will obey.

And the voice that speaks loudest is the one that gets results. That is the misfortune of representative democracy—the reason why real representative government never existed. The minority or the special interest which has the biggest ax to grind makes the most noise and congressmen naturally pander to them. That is the government of the United States in 1932—the reason why the majority of the people, unorganized, apathetic and inarticulate, are being sacrificed to excessive taxation and the greed of a government that can't economize.

There can be no betterment until congressmen are selected for their courage and ability to think rather than to obey. The people are reaping the whirlwind of their own cultivated misconception of representative government.

You may not know it, but the Graf Zeppelin has just completed another trip across the ocean. The fact that it received only casual notice in the newspapers is evidence that air transportation is in a far advanced stage. Something that not many years ago existed only as a wild exaggeration in fanciful fiction has become a commonplace reality.

From public enemy No. 1 in Chicago to No. 40,886 in Atlanta may be hardly what Mr. Capone regards as an advancement.

Derby Week Again

The horses run the Kentucky Derby Saturday afternoon at Churchill Downs, Kentucky, but this is really Derby week. Derby day doesn't begin to be enough time to express the breadth of interest in America's best known horse race.

Men who never threw a leg over a horse's back or watched a trainer bandage a runner's leg have been reading the advance dope on the Derby for days. There's a lot of racing blood that boils miles away from race tracks and the Kentucky Derby is the year's best excuse to let it have its way.

He may only be an underpaid clerk with near sighted eyes and a bald head, but Saturday afternoon he will take his place at the post alongside Earl Sande and Buddy Ensor, a good horse under him and the track stretching away ahead of him. Well, if not that exactly, he's planning to see the Kentucky Derby some time after the depression is over.

Or she may be busy at her typewriter when the crowds are gathering in the stands. That won't prevent her admiring the gay company or the brilliant assembly or remembering the lines of the dresses that are the most becoming. She, too, is a Kentucky Derby enthusiast whose enjoyment necessarily is of the vicarious kind.

They're off! Maybe they are, but if Americans had more Kentucky Derbies and fewer business worries to occupy their time there might be—fewer business worries. That would be worth something.

A Hollywood chorus girl who inherited $75,000 announces that she will keep right on dancing. Almost any of us would feel like it doing a few fancy steps even if we had never danced before.

Getting the Best in Government.

One of the questions to be discussed at the Ohio [illegible] Junior Chamber of Commerce [illegible] convention here [illegible] is [illegible] organizations stand [illegible] The members seek [illegible] for their organization [illegible] against [illegible] in law.

It is [illegible] an easy matter to [illegible] the Junior Chamber [illegible] locally, should spare no effort to help keep Ohio provided with the right sort of laws and government.

First of all, of course, they can do much by helping elect the best men available to legislative offices and to offices in other branches of government. For that matter too many citizens and organizations have been indifferent and inactive in political and election affairs, often taking no steps to prevent undesirables from being placed in positions of power and authority. Then when the results of their indifference become apparent, these same persons who failed to do their duty at the polls bewail unsatisfactory public service and berate the incompetent officials.

[illegible] political organizations which take a hand in elections and public affairs are sometimes regarded as meddlesome, but the objection comes almost entirely from professional politicians and office holders who know that they have not been giving the best of service.

With citizens organized to keep an eye on their interests government and public service are much more likely to be maintained on a satisfactory basis than it would be without this critical supervision. Right now citizens are probably more alert and active in this respect than they have been in many years. There are an unusually large number of civic groups engaged in movements to improve government by having it operate at the highest stage of efficiency at the lowest possible cost.

This is really a result of necessity, a product of conditions existing in the present economic situation. The cost of government and resultant taxes are far out of proportion to the public's ability to pay and as a consequence the public has virtually been drafted into the battle of looking after its own interests.

Conscientious and fair minded public officials welcome the counsel and cooperation of organizations striving to bring about a more satisfactory state of affairs.

It can be said for the Junior Chamber of Commerce, made up of young men getting the right sort of a start in life, that it does not follow the policy of standing dormant until election is over and then find fault with the way officials conduct the public's business. The Junior Chamber in Marion, and presumably the same course is followed in other cities, has frequently sponsored get out the vote campaigns prior to election days in order to have officials chosen who would be the choice of all the people and not just a small percentage. That is what the ballot intended to accomplish.

There should be no hesitancy on the part of the Junior Chamber, though, in supplementing its activity at election time with participation in movements to promote efficient performance of duty among both legislative and executive officials. If any decision is made at the convention here let it be one in favor of unceasing activity in behalf of the best possible public service.

The American people do understand Germany in accordance with the wishes voiced by the former crown prince in an interview on his 50th birthday anniversary, and they also regard Germans as a nation of the finest sort of people. But they also understand that had it not been for the Hohenzollern family and its ambitions Germany and the rest of the world would be much better off today.

Trying for Supremacy

The marble shooting tournament for the city championship [illegible] today among Marion schoolboys. It's an important event with them and should be in the estimation of all who have not forgotten their boyhood years.

Ambition to be the best marble player in the neighborhood is one of the earliest evidences of the predominant human desire to excel, to be at the top of the heap. As years pass man goes from marbles to other fields of competition and in each stage of his development the contest at hand is paramount.

In all human competition, either among young or old, there are those [illegible] shooters and others who resort to [illegible]. In marbles you will recall [illegible] consistently and for that reason had to be watched closely. [illegible] included much [illegible] belonged to the other fellow.

Competition later in life [illegible] the same line. But the [illegible] in the end [illegible] even though [illegible] triumphs.

An Edison couple [illegible] in the [illegible] saving a box [illegible] represents a little reward [illegible] could be no greater reward than [illegible] have [illegible] fellow man to [illegible].

The Ohio man who [illegible] penitentiary [illegible] term for [illegible] long to teach the [illegible] to be watched [illegible] promising [illegible].

The $2,000,000 in counterfeit [illegible] a raid on a New York forgery headquarters may not be much [illegible] than the presumably [illegible] the public in past years.

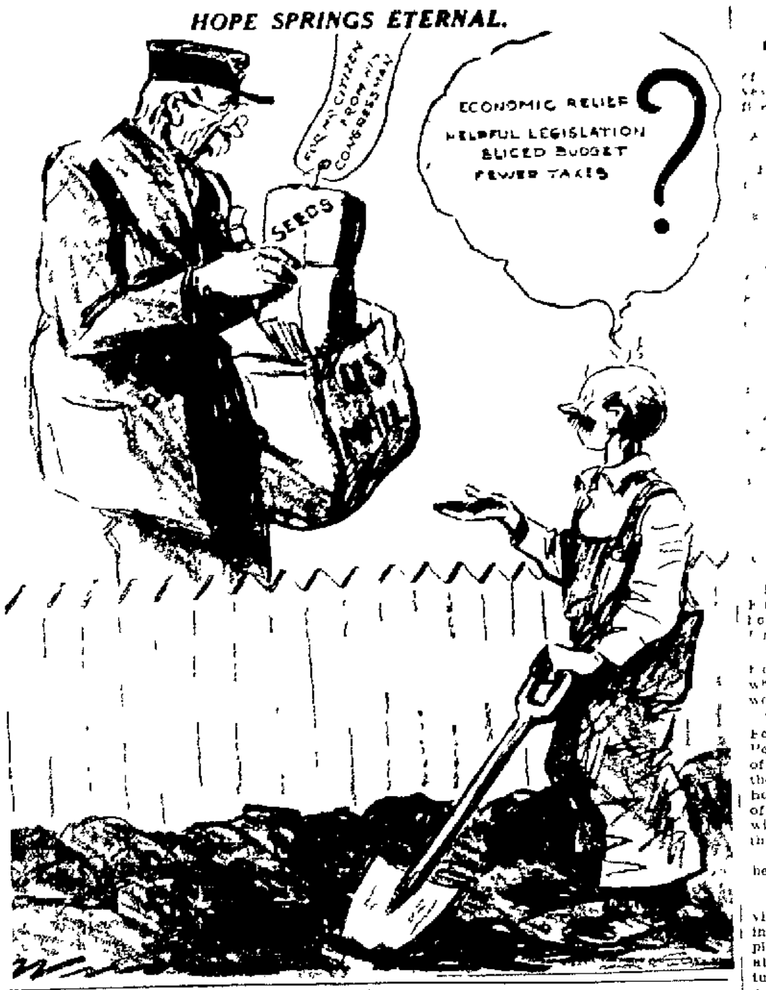
HOPE SPRINGS ETERNAL.



Editorial Opinion

OUR RUINOUS TAX SYSTEMS

[illegible] consideration should be given the proposal of Ogden L. Mills, secretary of the treasury, that a commission be named to devise a plan for coordinating state and federal tax systems. Addressing a meeting of the New York City bar association, Mr. Mills suggested that the commission be appointed through joint action by President Hoover and the governors' conference.

A condition of chaos exists in the realm of taxation and its embarrassments are increasing steadily. The back of the taxpayer bends lower in the weight of burdens imposed by public bodies competing with one another to make levies upon his possessions. Forty-eight state legislatures spend much of their time in devising new methods of extracting larger and larger proportions of private and corporate wealth and congress joins them in the exercise. Each looks at its own section of the picture; none of them [illegible] the picture as a whole. In 1930 taxes of all sorts collected by federal, state and local governments amounted to $10,266,000,000, or one-seventh of the national income.

The constitution reserves to the federal government the right to levy customs duties and to the states the right to levy property taxes. The remaining field is left wide open for cultivation by either federal or state governments [illegible]. Both have entered it. The original arrangement under which federal revenue was raised by indirect taxes and state [illegible] revenue by general property taxes [illegible] obtains and duplication of taxes has [illegible] a common and distressing evil.

Overlapping of federal and state taxation in the [illegible] of income taxes, business taxes, [illegible] and excise cannot proceed in the [illegible] uncoordinated manner without disastrous consequences from a foretaste of which the country now suffers.

[illegible] of governmental expenditures is [illegible] one of such importance that [illegible] it must continue despite the [illegible] which bureaucracy interposes [illegible] not the individual will be [illegible] think clearly and constructively about [illegible] of the future until the state [illegible] complex of taxation is simplified [illegible] that will take into [illegible] taxpayer capacity [illegible] and the respective needs [illegible] financing.

[illegible] difficulties lie in the way of such plan [illegible] knows better than do citizens [illegible] an antiquated constitution [illegible] of property for taxing [illegible] no elasticity of adjustment [illegible] and the national welfare [illegible] duty of earnest effort to give [illegible] to the proposal of Secretary Mills.—[illegible] Daily News.

Watch Diet to Stop Canker Sores

BY ROYAL S. COPELAND, M. D.

One of the most disagreeable disorders of the lining of the mouth is known as canker sore. None but the afflicted person can really appreciate the misery it causes. Indeed a canker sore may become so big and trouble some as to make the sufferer exceedingly ill.

The cause of canker sores is not entirely understood. They may occur singly or in crops. They come on suddenly and usually appear as small inflamed spots. Their favorite sites are at the base of the teeth under the tongue or on the inner surface of the lips or cheeks. At the same time the tongue usually is coated and there is bad breath.

Some individuals are very susceptible to this affliction, which often is caused by a sensitivity to a particular food or foods. When these foods are omitted from the diet the canker sores disappear. Relief in such cases can only be obtained by determining what food is the offending one. This is accomplished by keeping a list of foods eaten each day, and checking up on the menu of the day before the appearance of the canker sore.

Many authorities believe that canker sores are caused by some infection. For some reason there is a lowered resistance of the lining of the mouth to a particular form of infection.

There may be a lack of vitamin C, which is believed to be necessary for healthy gums and mucous membranes. Where there is a deficiency of this vitamin the gums are spongy and bleed easily. This weakness may be overcome by the addition of large quantities of citrus fruit, tomatoes, celery and lettuce to the daily diet.

Another vitamin important in combating this ailment is vitamin A. When there is a deficiency of this vitamin in the diet, the resistance of the body against infection is lowered. This can be corrected by eating foods rich in vitamin A. Butter, cream, egg yolk, cod liver oil, spinach and carrots are a few foods which contain large quantities of this valuable vitamin.

Avoid all irritating food. Infected and decayed teeth should be removed. Cleanse the mouth three times a day with a saturated solution of potassium chlorate in equal parts of water. In every [illegible] the canker sores are relieved when carefully touched with a silver nitrate stick.

Build up the general health. All the simple rules of hygiene should be observed.

Professor Selva's 12 ton statue of St. John [illegible] has been taken into the Basilica and hoisted into the niche which has been waiting for it for many years.

The giant statue is hewn out of one solid block of white marble and its accessories, which were packed in five separate crates, weigh nearly two tons.

The statue was addressed to His Excellency [illegible] Bishop Overseer of the Fabric of St. Peter's. It was drawn from the goods depot of the Italian state railways across Rome on the largest platform coach in the city by ten horses which were unharnessed at the foot of the steps of St. Peter's. An army of men with the help of stout cables pulled it up into the Basilica.

Professor Selva, the famous sculptor, has been working on it for ten years.

In the old picture gallery in the Papal city visitors had to go through all the rooms twice in order to leave, but the new one is so planned that they go in at one door and leave at another built beside the entrance. The pictures are grouped in a rough chronological order, foreign masters' exhibits no longer being in a room apart as in the old gallery.

An Early Ohio Gentleman

BY J. H. GALBRAITH

One of the first men of scientific training to come to live in Ohio was Timothy Jones, who was born in Rhode Island about 1755. He was educated in Brown university and subsequently fitted himself for the practice of both law and medicine. In the course of preparation for the latter profession he became much interested in chemistry and this enabled him to win a prize offered by the legislature of Massachusetts during the war of the Revolution for the best method of producing saltpeter.

He attained high social position in Providence, R. I., where he lived through the early part of his life, but losing his wife by death when he was about 50 years old he resolved to withdraw from the scenes of his former happy life and to forget it all, plunge into the heart of the Ohio country. That was in 1805 and he came direct to the forest covered hills of Rome township, Athens county, where he spent the rest of his life.

Laying aside the garments of finer texture to which he had been accustomed up to that time Dr. Jones put on the rough dress of the hunter and pioneer and swinging an axe, scythe and hoe cleared and cultivated a farm and made himself a very valuable member of that sparse community. He did not seek to make a recluse of himself but joined hands with his neighbors in all that seemed worth while to them to do.

The writer of a history of Athens county, quoting a man who remembered Dr. Jones well, said of him that he was in the forest a hunter true to type, in the fields a farmer fully filling the part, and in the parlor of the frontier cabin home a perfect Chesterfield of grace and good manners. Walker's history of Athens county says that he married a daughter of Ebenezer Barrows, a soldier of the French and Indian war, who was, it is to be presumed, his second wife.

A Washington Daybook

BY HERBERT PLUMMER

Washington, May 6—If Charlie Curtis in the quiet of his handsome hotel apartment or in his luxurious office on Capitol hill ever pulls down a history book and looks up the record on election of vice presidents, that usual broad grin he wears must take on something akin to a frown.

These whispered doubts heard around Washington that after all he might not be President Hoover's running mate this year would seem to have ample precedent to back them up.

Only one man since the days of Andrew Jackson has succeeded in capturing the renomination for the vice presidency and then going out and winning the election. And he was one of Curtis' old friends in the senate—Thomas R. Marshall.

Go back to the time of Jackson when the present method of nominating presidential candidates was begun.

* * *

Calhoun was Old Hickory's first running mate, but when Jackson ran for his second term he had Martin Van Buren. When Van Buren became President Richard Johnson was his vice president, but Johnson was not nominated to run with Van Buren for a second term.

Lincoln started out with Hannibal Hamlin, but for the second term Hamlin was dropped and Andrew Johnson substituted. Grant the first had Colfax but switched to Henry Wilson when he stood for a second term.

Grover Cleveland had a different running mate each of the three times he sought the Presidency. Hendricks was the first, Thurman was his second and Stevenson his third.

Harrison had as his running mate Morton, but when he sought reelection un-successfully, he had Reid on the ticket with him. McKinley's first was Hobart and his second Roosevelt.

[illegible] the man was the first vice president renominated. He was Taft's partner. Sherman died during the campaign and Nicholas Murray Butler went down to defeat with Taft at the hands of Wilson and Marshall.

Wilson and Marshall were the first presidential team in almost a century to be voted out for two terms. In all of that time Marshall was the first vice president to be reelected and the second to be renominated.

* * *

Curtis looked long and hard before he decided to risk it again. There are few tricks about politics that he doesn't know. He see something that others may [illegible].

Curtis is not the type that would [illegible] ing the senate that he loves so well [illegible] the sake of being the second man [illegible] reelected vice president in the last [illegible] years.

He's played long shots before and won. Probably he is sure his luck will hold in this gamble.

The United States is the second largest exporter of chemicals ranking next to Germany, and supplies virtually one-sixth of the total world trade.

Dr. Robert Holmes who served as postmaster in 18[illegible] always wore a high beaver hat and carried all of Marion's letters in it, the story states. The Parents Knew

U[illegible] willing to grapple with any problem which might present itself in the days work city police this week were stumped when it came to the matter of determining whether the statement of the parents as to the sex of a child was true.

The child which bore a startling resemblance to the Lindbergh baby was found in an automobile stopped by the police because no license tags were visible. Taken to police headquarters the parents maintained the child was a girl. The police believed the child was a boy. The question was finally settled when a woman passing the police station at the time was appealed to by the police. She confirmed the claim of the parents. They were released when they displayed a certificate showing they had applied for an automobile license in Illinois.

Diet Didn't Do This!

HAPPY little girl just bursting with pep and she has never tasted a "tonic"!

Every child's stomach, liver and bowels need stimulating at times, but give children something you know all about.

Follow the advice of that famous family physician who gave the world Syrup Pepsin. *Stimulate the body's vital organs.* Dr. Caldwell's prescription of pure pepsin, active senna, and fresh herbs is a mild stimulant that keeps the system from getting sluggish.

If your youngsters don't do well at school, don't play as hard or eat as well as other children do, begin this evening with Dr. Caldwell's Syrup Pepsin. This gentle stimulant will soon right things! The bowels will move with better regularity and thoroughness. There won't be so many sick spells or colds. You'll find it just as wonderful for adults, too, in larger spoonfuls!

Get some Syrup Pepsin, protect your household from those bilious days, frequent headaches, and that sluggish state of half-health that means the bowels need stimulating. Keep this preparation in the home to use instead of harsh cathartics that cause chronic constipation if taken too often. You can always get Dr. Caldwell's Syrup Pepsin at any drug store; they have it all ready in big bottles.

[illegible] of the original tax program; its passage of $1,200,000,000 road building bill [illegible] the Gleams widows and orphan pension bill while refusing to sanction cuts in allowances for ex-soldiers as provided by the economy bill; virtual destruction of the latter measure; failure to make possible adequate reduction of government bureaus and commissions; passing a bill ordering the federal reserve board and the treasury to fix the value of the dollar, and the threat (through the bonus or other pending legislation) of enacting laws looking to uncontrolled inflation.

To this indictment the Democratic floor leader, Rainey of Illinois, jumped up with the charge that this was the President's first speech in his campaign for reelection. The senate leader, Robinson of Arkansas, took the floor to say the plight congress finds itself in never would have developed if the administration had not made unaccountable errors in presenting its estimates of the revenue needed, and that not general advice but specific suggestions were required. Others joined in.

They were met with ready and hot replies. Representative Snell, Republican leader, said campaign material or not, the Democrats would have to answer for the present situation. Senator Reed, Republican of Pennsylvania, told Robinson the definite suggestions had been presented often enough but that congressional courage was lacking. In the ensuing debate he observed that if this country ever needed a Mussolini it needs it now, immediately drawing upon his head a spirited castigation from Senator Johnson, Republican of California.

"To proclaim a Mussolini it is but to echo the cry of every exploiter in this land," he said, with finger pointed at Reed. "I understand as you understand that democracy sometimes moves slowly. But democracy represents something bigger, something finer, nobler and greater than that which is represented by any dictator on the face of the earth."

The President, besides upbraiding the house, turned an attack on special and sectional interests, blaming them for exerting pressure to dominate congress, thereby hurting not only the country but themselves.

Mothers' Day

is next Sunday, May 8th

DON'T FORGET HER . . . .

[illegible] next Sunday is Mother's Day—the day that can be the happiest [illegible] of all the year if you remember her—or the saddest if you carelessly neglect her! Go home to her if you can—or if that's impossible—write her one of those letters she loves to receive. But whatever you do—be sure to give her some little gift or token of your love for her. It needn't cost much—any one of the hundreds of attractive inexpensive gifts the Marion stores are now displaying will make her the happiest person in the world. Tomorrow is your last opportunity, so hurry—and remember

SHE NEVER FORGETS "YOU" . . . . .
